

Artifact Requirements

- The table for your booth will be used to display artifacts (i.e., models, samples, tools, and other items that are related to your group's topic). For example, you might have a hornbook, models of buildings, fabric, food samples, games, documents, tools or products made by particular trades (such as a wig or leather), etc.
- EACH person in your group must create or bring at least TWO artifacts that are related to his/her specific focus question. Additional artifacts are welcome and encouraged 😊
- All of the artifacts that you display on your table must be labeled. You will be given directions about how to label the artifacts in class.
- The tables for your booth must be covered with clean tablecloths or sheets. The tablecloths or sheets should be solid, striped, floral, plaid, or checkered.
- Make sure that your booth captures the “flavor” of your topic and the time period! Be creative!
